Brian Knight, President/CEO
NASCUS
1655 North Fort Meyer Drive, Suite 650
Arlington, Virginia 22209

Dear Mr. Knight,

I would like to formally thank NASCUS for all of the assistance your agency has provided for my office over the years, and we have been especially grateful for the support of the NISCUE scholarships as we continue to develop our examiners and strengthen our examination program overall.

The annual NASCUS conferences have provided our staff with the opportunity to collaborate with other industry leaders across the country to work towards our common goal of furthering the credit union movement in a sustainable manner. The speakers and presentations at these events have proven to be extremely beneficial, as our staff works to stay on top of the rapidly evolving regulatory landscape facing credit unions. Additionally, the NASCUS Online University platform has been an excellent addition to our new examiner training program, and it has been a valuable tool to help supplement field training for our staff.

As a state agency with somewhat limited training resources, NASCUS has been instrumental in keeping our agency informed of regulatory updates, while also helping provide a flexible training platform for our exam team that seamlessly integrates with their busy schedules. NASCUS and the NISCUE scholarships have been invaluable resources for my office, and we truly appreciate everything that the NASCUS team does to make this possible.

Sincerely,

Troy Kaja
